

DDR-796-62

29 November 1962

MEMORANDUM FOR: TAES/OSA

SUBJECT: Radar Buster Missiles

1. Page 26 of Aviation Week & Space Technology, issue of 28 November 1962, has a notice on the above subject.

2. It is requested that you look into the various proposals and work being done on this subject as indicated in this article. I feel we may have a use for such a capability, especially in something like or some other low altitude missions which may occur in the future.

3. I would like a progress report by 13 December 1962.

EDWARD B. GILLER
Assistant Deputy Director
